The most inspiring design hotels in Paris for all budgets

By trivago, 10th August 2018

Interior designer and blogger Danielle shares her top picks for an artsy design hotel break in the cultural capital of Paris...

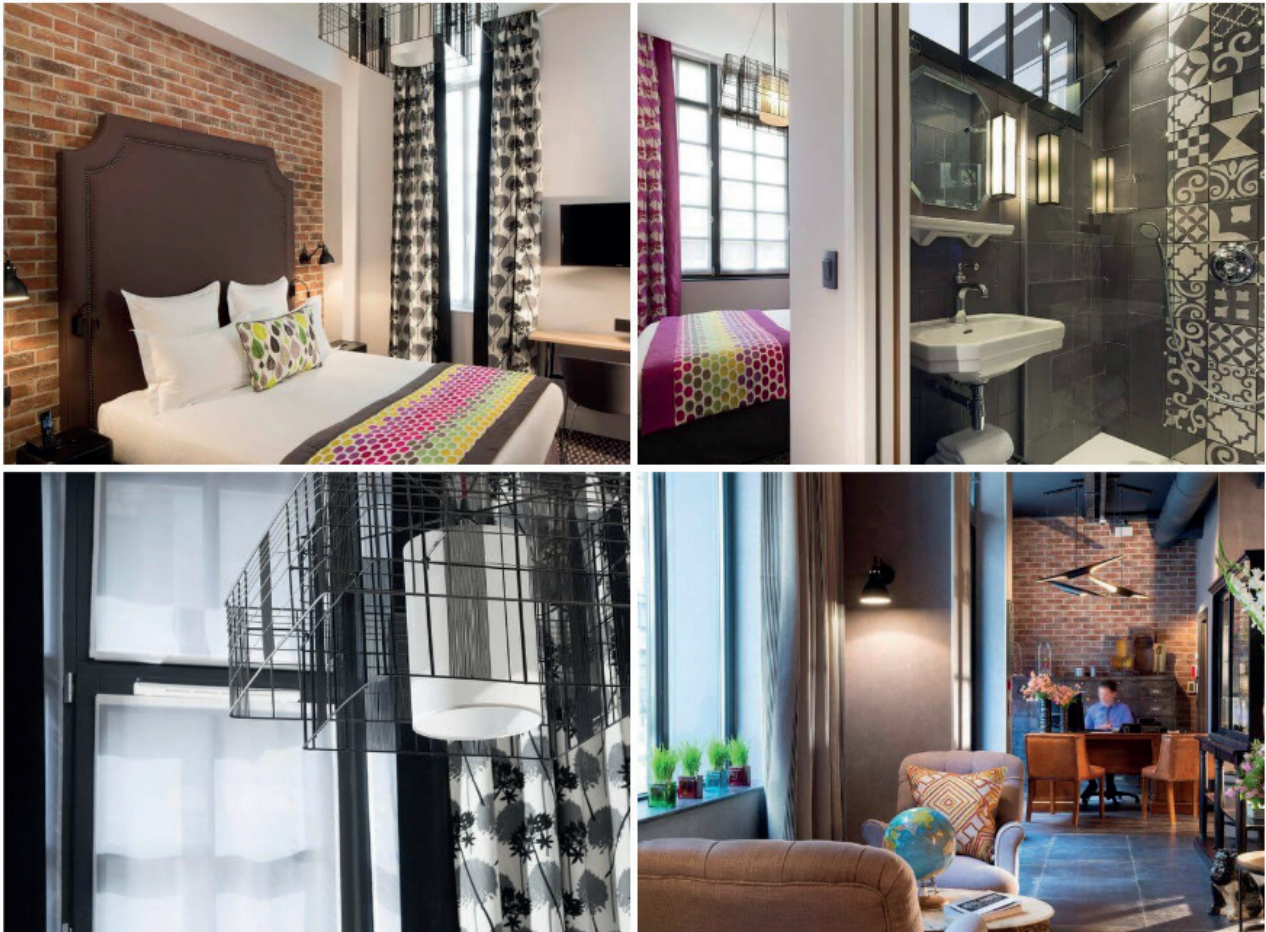

Charming and enchanting, full of life and splendour, Paris is surely one of the most beautiful cities in the world for a weekend trip.

As an interiors lover and designer I am obsessed with Parisian interiors. In the mix of French traditional and modern, I envisage bright airy rooms with high ceilings and plenty of light flooding in, reflecting on the polished parquet floors and marble fireplaces with floor-to-ceiling flowy curtains.

Whether it's your first trip or your tenth, here you can find my personal favourite design focused hotels in Paris for the most instagrammable stay to date. From 5-star luxury to chic and affordable, each hotel has something unique that will elevate your experience through art and design, whatever your budget.

Industrial design hotel in a Parisian artisan district

★★★★ [Fabric Hotel](#) | ££

This [hotel](#) couldn't be more interesting. A former textile factory in the middle of the artisan district of Oberkampf, most of the industrial characteristics of the building have been maintained throughout the renovations to work with the beautiful concept that is the Fabric Hotel.

Bold décor, metallic accents, brick walls and locally sourced accessories make the design of this hotel truly unique. And with plenty of amenities, you will have to make time in your day to use the hammam and their fitness facilities, and in the evenings relax in their honesty bar. The guest areas of the hotel are also stunning, so make sure you leave some time to enjoy these too!

Insider tip

Before heading to the bars in Oberkampf, make a stop for dinner at Canteen Al Taglio, who serves pizza by the weight. The potato and truffle pizza is incredible!
